DAY 1

DUBROVNIK - MLJET

Distance: 23 nm
Duration: 2 hours and 30 minutes
Temperature: 27°

Mljet is also home to two interconnecting salt-lakes, Veliko Jazero and Malo Jazero, in the Mljet National Park. The lakes, with sources dating back 10,000 years, are proclaimed to be unusual geological and oceanographic phenomena of global significance. Up until the Christian era, these were freshwater lakes. They are surrounded by beautiful, rich forests creating an image of an unspoiled natural world. On a small islet of Veliko Jazero, you'll find the 12th century Benedictine Monastery of St. Mary, which is a significant part of the history of the Illyrian tribes, the Roman Empire and the Republic of Dubrovnik.

DAY 2

MLJET - KORCULA

Distance: 25 nm
Duration: 2 hours and 40 minutes
Temperature: 27°

Korcula is one of Croatia's most treasured islands and definitely one to include in your Croatian charter itinerary. This beautiful island, known by the Ancient Greeks as Black Kocula thanks to its lush forests of Aleppo pine, cypress and oak trees welcomes its visitors with a colourful cultural heritage and interesting legends. Stroll the enchanting narrow cobbled streets of the town of Korcula, surrounded by 13th-century walls or enjoy one of the many art exhibitions and summer evening festivals. It's the sixth largest island in Croatia, at 20 miles long and between 4 and 5 miles wide on average.

DAY 3

KORCULA - LASTOVO

Distance: 23 nm
Duration: 2 hours and 30 minutes
Temperature: 25°

The beautiful, remote island of Lastovo, and the surrounding archipelago, make for the perfect spot to explore quaint, ancient stone villages and weave through the lush pine forests. Anchor off the island to swim in the sparkling clear waters or rest on a small pebble beach. With less than a thousand inhabitants, nature is in abundance here. The island is also well known for its dry, white wine "Lenovo Marastina".

DAY 4

LASTOVO - VIS

Distance: 37 nm
Duration: 3 hours and 55 minutes
Temperature: 25°

In the north-eastern part of Vis Island, the town of Vis is situated at the bottom of a protected bay. If you are in love with culture, tradition, mystery and the best Adriatic cuisine has to offer, you will love Vis, or Issa (as the ancient Greeks called it). One of the reasons why Vis itself is considered a wonder is that it is a place where time remains still. Vis was established by ancient Greeks in 397 B.C, but has up to this day retained the old, irresistible Mediterranean charm and life without stress and trouble. It's a top destination for yachtsmen from all over the world and you will be able to find the secrets of Vis yourself.

Those famous topaz skies shine above the sapphire sea, and the landscape boasts an idyllic mix of lavender and olive groves, rolling hills, red-roof towns, and sweet and shady pine forests. As one of the most enticing trading hubs – everyone from the Venetians to the Romans and the Greeks has left their mark on Hvar.
